TRAINING FOR YOUR LIFESTYLE

Cirrus Approach
Student User Guide

learning.cirrusapproach.com

Welcome to Cirrus Approach!

The following guide will help identify some of the key features and give a high level overview of how to use the Cirrus Approach learning platform. We will continuously work to improve the user experience and plan to release even more new features throughout the year.

Supported Devices:

Desktop, Tablet & Mobile
learning.cirrusapproach.com

NOTE: The Cirrus Approach iOS App is ONLY available for Instructors to use.

The Cirrus Approach learning platform is a web-app that is best viewed on desktop, laptop or a tablet with a minimum screen width of 600px. Although the web-app will work on most mobile devices, some features may be difficult to view and use with a smaller screen size.

Recommended Browsers:
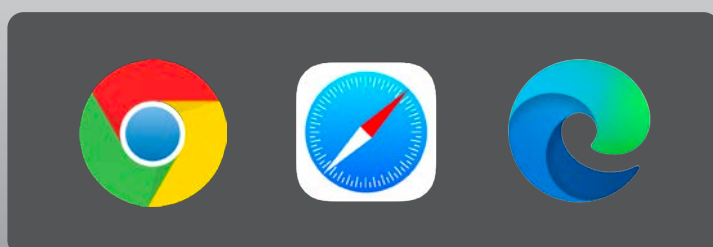

Google Chrome (Mac/PC)
Safari (Mac)
Microsoft Edge (Mac/PC)

The "NEW" Web-App Experience:

Logging into **learning.cirrusapproach.com** will now bring you to the "Recent Activity" page on the web-app. From here you will have better visibility to all your courses, coursework stats, and easy access to connection notifications and achievements.

Callout: Courses In Progress are displayed up top to easily resume training, along with a search feature to find your other courses.

Callout: Logbook, Coursework and IACRA totals viewable by selecting the tabs.

Callout: Notifications and Student Connections can be easily managed here.

Callout: Access to Certificates and Badges here.

Course Overview:

Each course now has its own overview page with tabs for all the lessons and enrollment history. This page also tracks overall progress throughout the course and allows you to easily "Get Started" or "Resume" training right where you left off.
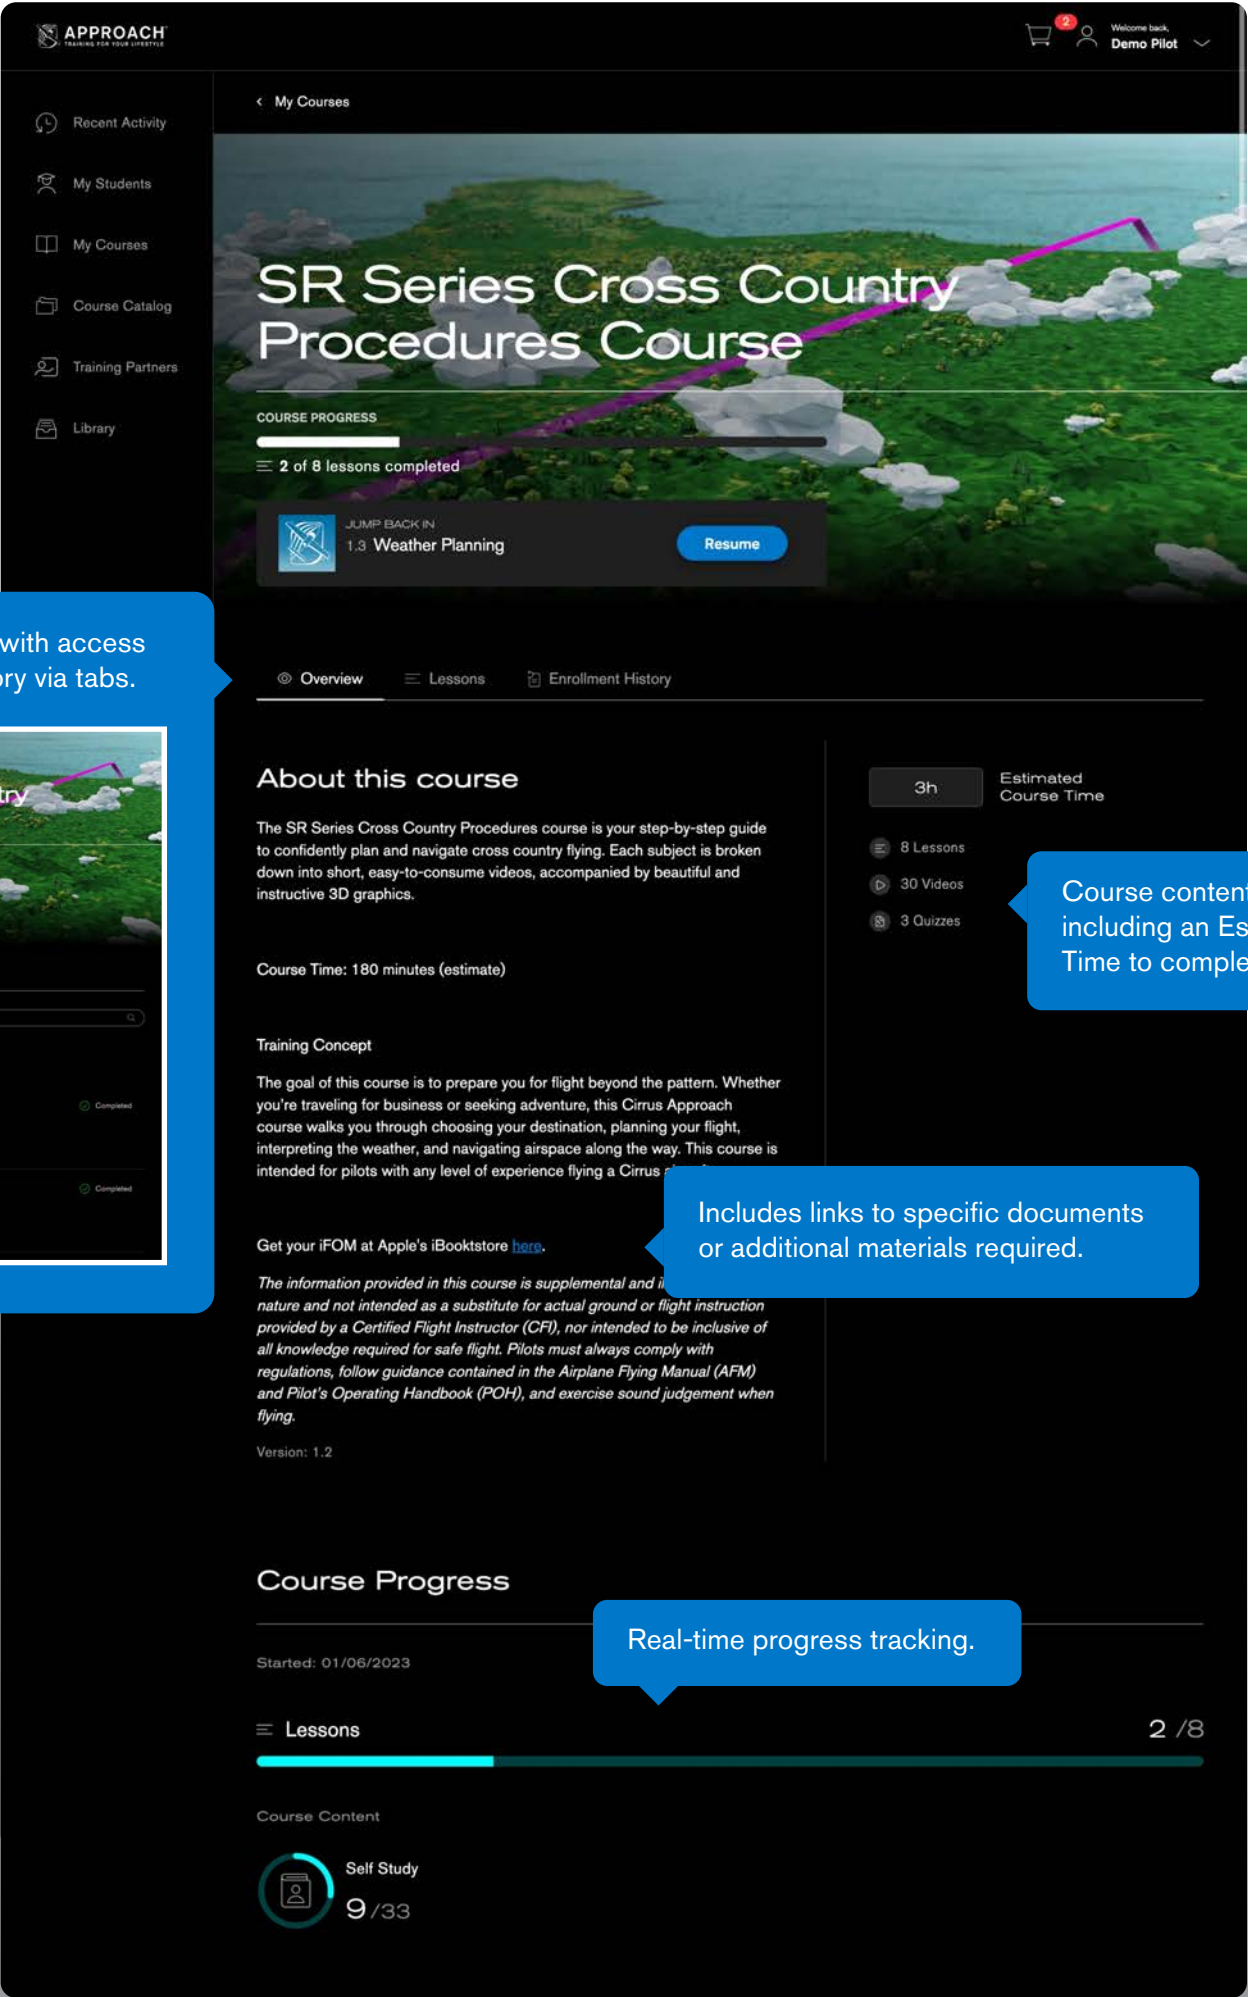

More detailed course descriptions with access to all Lessons and Enrollment History via tabs.
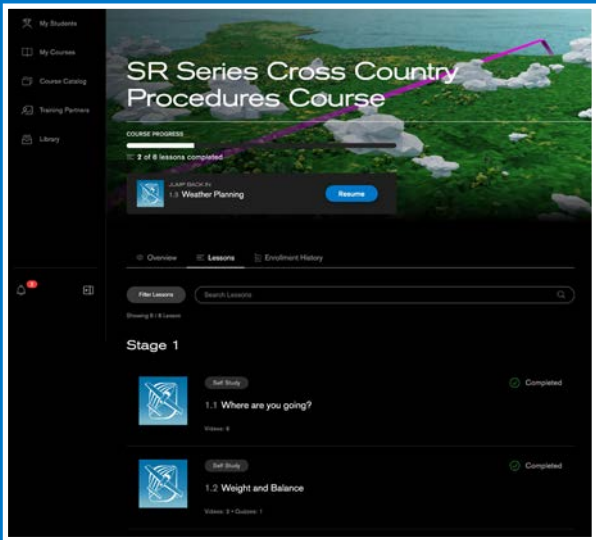

Course content list including an Estimated Time to complete.

Includes links to specific documents or additional materials required.

Real-time progress tracking.

# Lesson Landing Page:

Clicking on "Get Started" or any lesson from the course overview page, brings you to the lesson landing page where training begins. The course contents menu in the top right allows you to navigate to any lesson, and displays the status of each lesson in the course.

Course Overview page:

Engine Management

Self Study

Resume Lesson

Self Study
3/5

Course Contents menu opens a drawer to easily navigate through all lessons.

Lesson type and progress.

◠ In Progress
✓ Completed

Lesson Content Player:

Once a lesson is started, the new content player makes it easy to navigate to lesson content by using the "Next" and "Previous" buttons, or with the list in the top left menu. As lessons are completed, progress will be tracked on the course overview page as well as throughout the site.

Content types and Lesson status icons to track progress.

Navigate quickly through Lesson Content.

Missed Task Attempts feedback & performance.
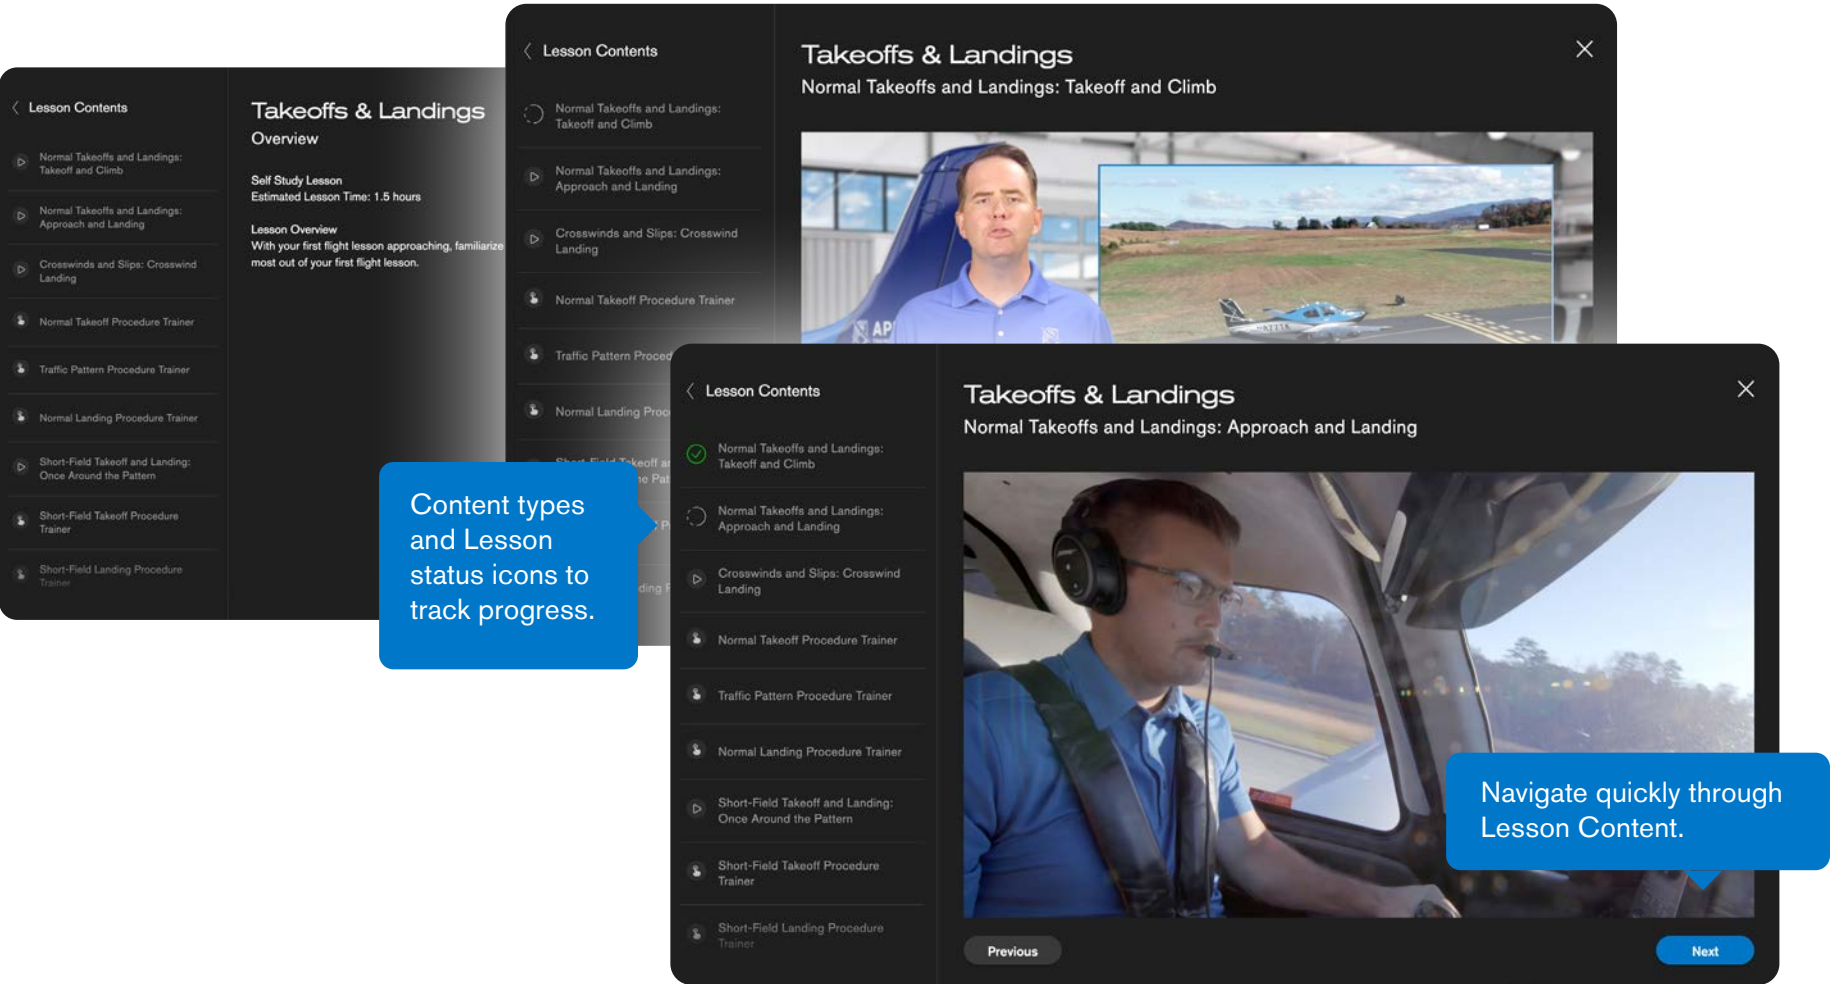

NOTE: Logbook entries and task performance are also viewable in the lesson content player
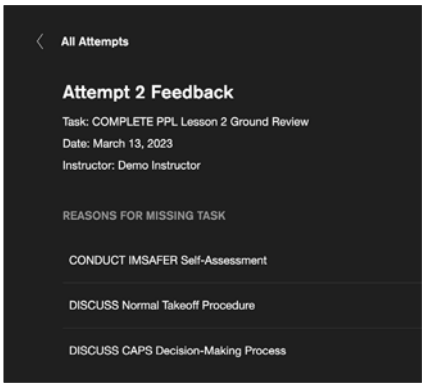

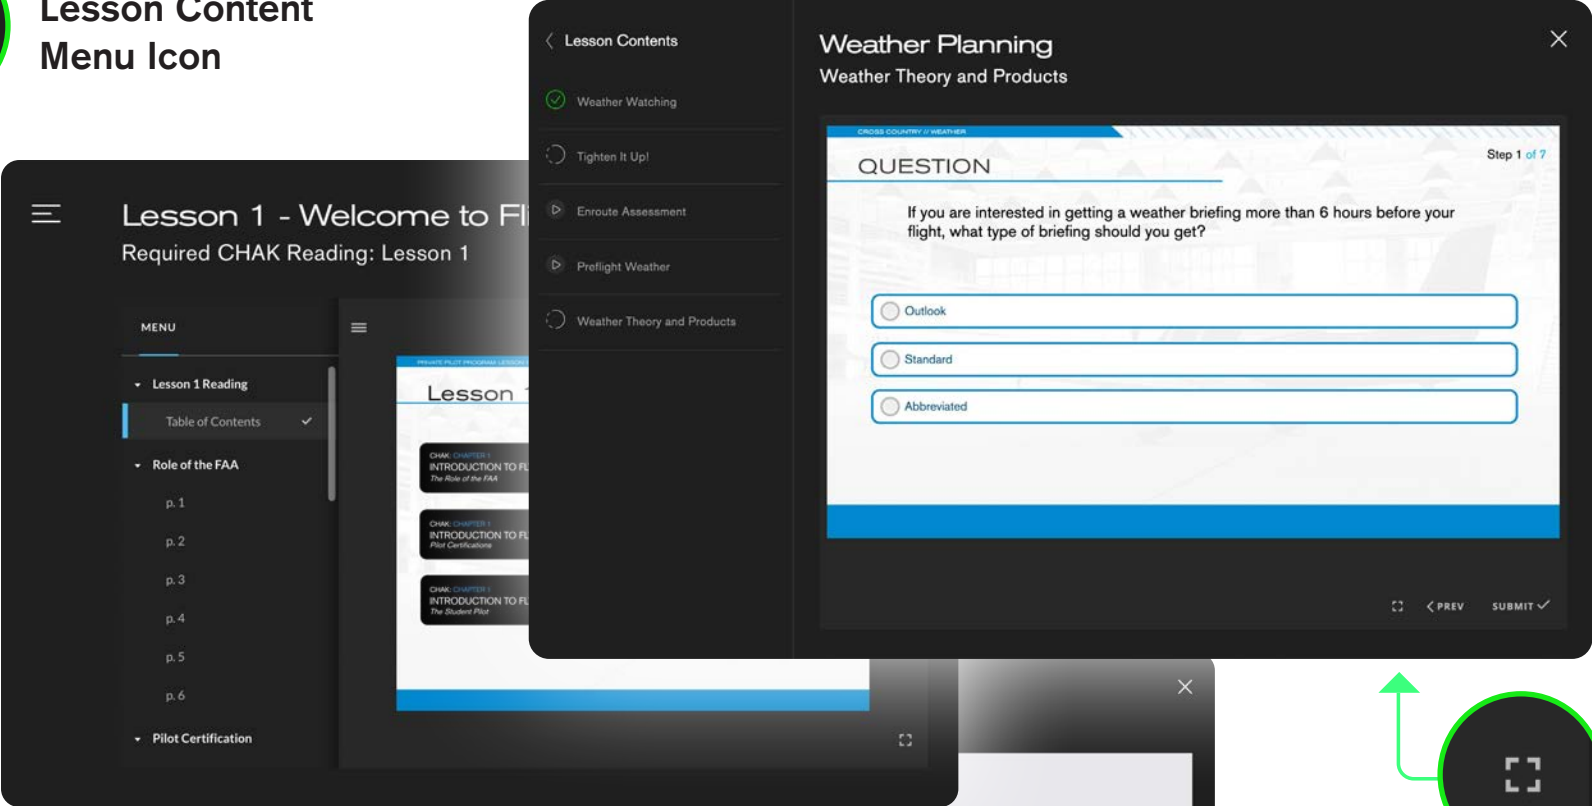

Lesson Content Player (continued):

While in the player, it may be useful to view content fullscreen depending on your device type. Videos have the fullscreen button in the controller bar and for other content types it is locted in the lower right corner. Pressing "esc" on your desktop keyboard will exit fullscreen mode.

Fullscreen Icon: Quizzes/Interactives

Fullscreen Icon: Video

NOTE: Pressing "esc" on your keyboard will also exit fullscreen mode.

Video Controller bar appears on hover.

We're committed to making the Cirrus Approach learning experience the best it can be.

These updates are just the beginning of what's on deck. New features and functionality are currently in development so if you have suggestions, find bugs or have any issues, we want to know.

Feedback can be sent at any time by clicking the link at the top of the "Recent Activity" page.
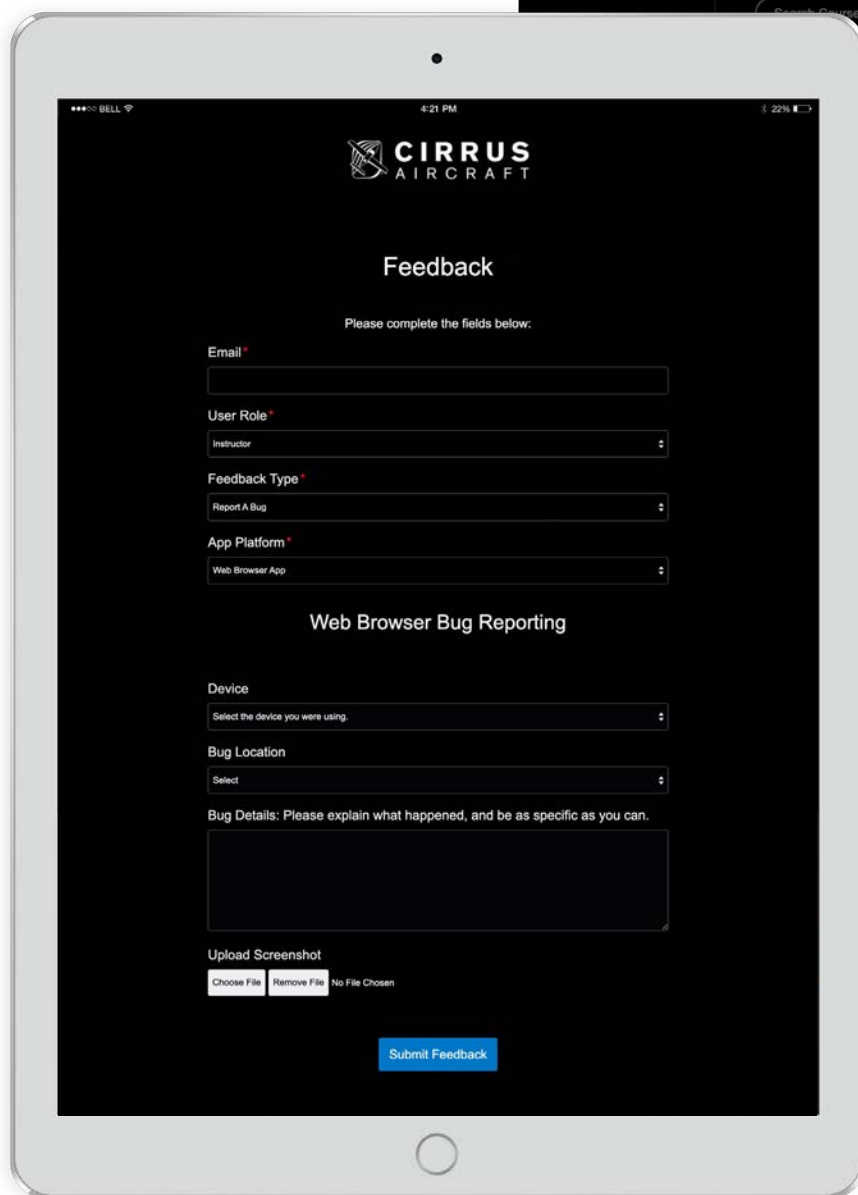

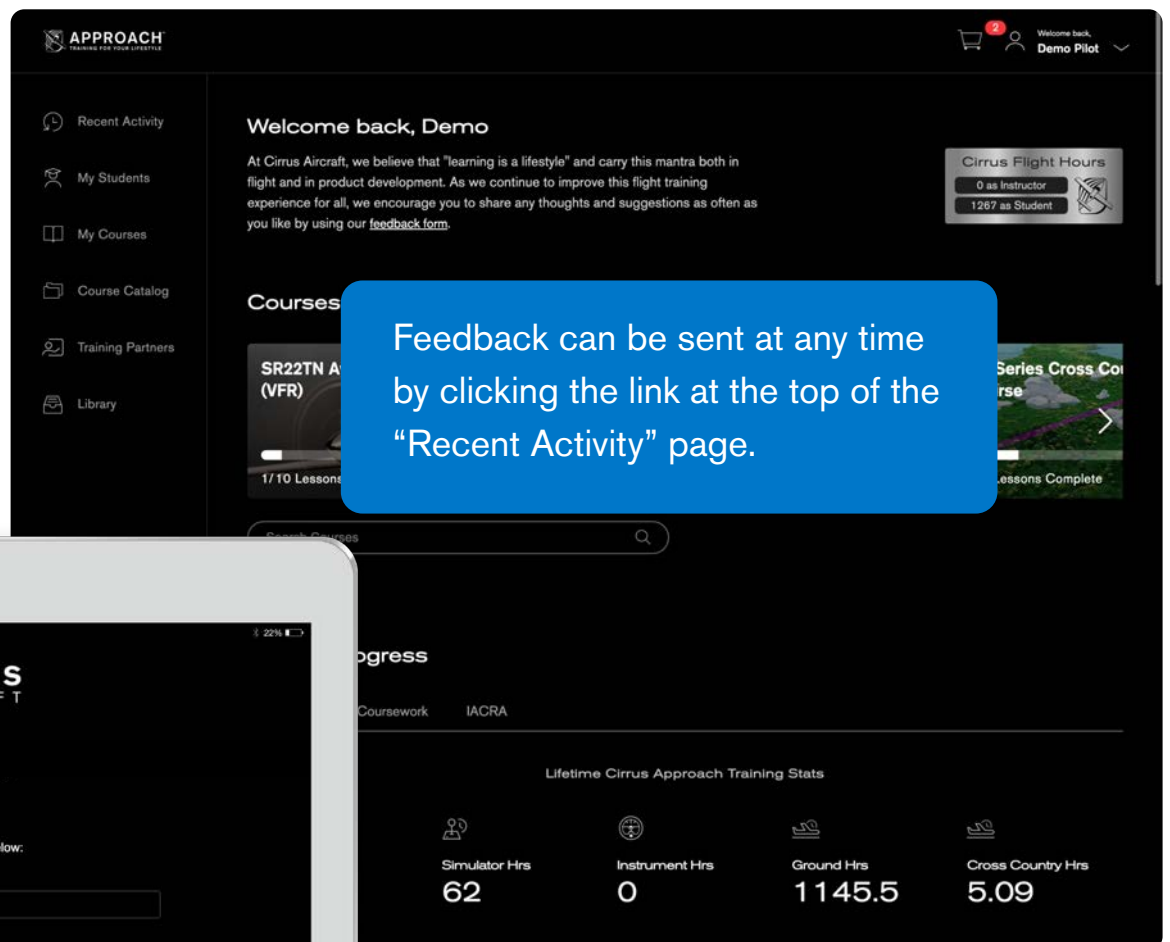

We value your opinion!

Any input or feedback you provide will be extremely helpful in creating a better experience for all.

If you experience any difficulty with the app, please contact **learning@cirrusaircraft.com** or use our online form <u>here</u>.
